President's Welcome

As the President and also on behalf of the Victorian Association of Photographic Society's committee members, I would like to extend a very warm welcome to all the delegates, friends and presenters at this 2018 convention here in the rural city of Warrnambool.

Many individuals have worked extremely hard behind the scenes to bring you a wonderful programme extending in parts to four days, with world class internationally known speakers, excellent photographic print and audiovisual displays, formal and social dinners, outdoor portrait and seascape workshops and other locally planned cultural events, which we hope, will make this a full and satisfying event of photography.

I would like to extend my sincere thanks to the following people who have made this event possible.

Firstly, to the Mayor, the councillors and staff of the Warrnambool City Council. To the Vice-Chancellor, University Executive and the Senior Management Group of the Deakin University.

Importantly too, my heartfelt thanks to the Committee and members of the Warrnambool Camera Club for their amazing work, planning and diligence to make this event happen.

VAPS is now well known for its commitment and dedication to holding high quality conventions and I am very proud to have had a part in bringing you this wonderful event in your photographic calendar.

We as a committee, always make great efforts to hold these conventions in country areas of Victoria as often as we can when its feasible, to ensure that we are inclusive of all Victorian clubs and also, to give our members great locations for which to visit, to stay hopefully a little longer and photograph the areas best vantage points and scenery.

Without the support of local photographic clubs and societies, conventions like this would not be possible.

I hope you enjoy to the fullest, the hospitality and warm greetings of the local club and enjoy your stay here in this most delightful coastal and rural city.

President VAPS**

Welcome to Warrnambool, our cosmopolitan City by the sea.

We're thrilled to be host city for the 2018 VAPS convention and are confident you'll enjoy a few days of great hospitality while sharing and learning more about your passion of photography.

No doubt many of you will have stopped at the 12 Apostles to capture your unique take of this incredible feature of the Victorian coast.

We hope you find there is plenty more to train your lenses on in and around Warrnambool.

The internet is awash with photographs taken hurriedly with mobile phones. They can certainly capture important occasions and are a wonderful addition to humanity's great digital journal, but there really is something special about an image recorded using a dedicated camera by a photographer who has thought about the composition, the moment, the light and the audience.

You have a great line-up of convention speakers and experts and I've no doubt you'll leave Warrnambool as better photographers.

We look forward to you returning soon to put your newly honed skills to the test.

CR. ROBERT ANDERSON

WARRNAMBOOL CITY COUNCIL

Welcome from the Warrnambool Camera Club to the 2018 Victorian Associations of Photographic Societies annual convention.

Warrnambool Camera Club is in its 70th Year of our association with VAPS and we cannot think of a better way of celebrating this milestone than hosting the VAPS convention.

As President and on behalf of all the Warrnambool Camera Club members, I welcome all delegates their families and friends to not only the conference but to our fantastic piece of paradise here in Warrnambool. The club has just over 30 members, all keen to make you feel right at home at the 2018 convention.

You will find many photo opportunities in and around Warrnambool from Childers Cove, Tower Hill, Hopkins Point, Southern Right whale nursery, Lake Pertobe and just down the road, the 12 Apostles. These are just some of the many places you can enjoy.

The facilities on offer, at the Warrnambool Campus of Deakin University, are world class and we are very fortunate to have such a great venue in our city. In fact, we are returning to the same venue where we last held the VAPS convention back in 1995.

I would like to thank all the volunteers from our own club. Their efforts are greatly appreciated and their tireless efforts will make this convention a successful and enjoyable one for all.

We would also like to thank the students and staff of South West Tafe for their assistance.

We hope that you pick up some valuable information but foremost have an enjoyable and relaxing time at the convention.

Don't forget to take a few photos, while you are here, and in the words of Ansel Adams - "The single most important component of a camera is the twelve inches behind it."

If you are ever in Warrnambool, on a Thursday night, drop by and say hi. Our club doors are always open.

Stan McCullagh
President
Warrnambool Camera Club.

The AIPC competition was initially formed in 1989 when it was known as the Allied Camera Clubs Competition.

The competition now known as the Australian Interstate Photographic Competition, (AIPC) comprises images selected by the state bodies of each Australian State and Territory.

Whilst it is not an APS competition, it is however always held in conjunction with the APS annual convention, APSCON.

APS provides Herbert Bronze medallions to the winning exhibit in each section and Merit Certificates are provided by the managing state to the top five entries in each section.

The Warrnambool Camera Club welcomes and sincerely
thanks our major sponsor

Denis Smith - Light Painter

Denis Smith bought his first camera in 2009, and during the same year a huge life change saw him leave his home-town of Auckland, to make a new start in Adelaide, South Australia.

The move away from Auckland and a high-flying corporate life allowed Denis the time and space to deal with the depression, alcohol abuse and lifestyle that almost killed him. Photography quickly became the creative outlet that allowed him to replenish both mind and soul.

Denis is now known as one of the world's most prolific light painters, and continues to inspire photographers of all ages and experience to explore and push the boundaries of their own creativity.

Through his light painting workshops, Denis mentors beginner to advanced photographers and leads them into the night to create ethereal and mind blowing images.

Denis believes photography should be inclusive and that we live in an incredible age where everyone, young and old, can create stunning images that spark joy and enthusiasm deep within.

With an uncompromised openness about his own mental health issues, Denis brings art, nature and people together whilst influencing mental health acceptance and equality.

Our Presenter Profiles

Oat Vaiyaboon aka **hangingpixels**, was born in Bangkok, Thailand.

His mother had spent part of her youth attending university in Canberra and was impressed enough to send her son down under to further his education.

So at 14 years old, Oat made the long journey to Sydney. After completing year 12 in 1996, Oat went to university to study architecture. After university, he worked as a draftsman, spending the next decade adding his creative flair to the Sydney skyline.

Oat's desire to expand his horizons meant he went back to university to obtain his masters degree in design, photography and digital media. This re-ignited a passion for photography that had existed since high school where he chose photography as his major in Art.

Back in high school Oat still used the old film that had to be developed. He could often be found working in the dark room, processing his images and watching them come to life. Although now it is all digital and the tools are different, a lot about the process of photography for him has stayed the same.

The thing Oat loves most about photography is that he can go out and not be committed to one thing, it is about each person's interpretation.
"It is how you see the object you are photographing. I look at things and work out when and how to use the natural light, I'm still learning now. Sometimes you go out with your camera and come back and all the shots are terrible."

Oat's venture from Sydney to south-west Victoria has provided him with wonderful subject matter. Images of the Grampians, the Great Ocean Road, the Otways, the high country and just about every natural wonder in and around Port Fairy have caught the attention of his camera.

Oat shares his passion for photography, both with camera in his hand or attached to a drone, on his Facebook and Instagram accounts and on his website.

He is a licensed drone operator, capturing spectacular shots from above.
"People are becoming more aware of what drones can do, what great shots you can get from using them."

For Oat, taking photos is very therapeutic. He travels around, sometimes with his family or friends, sometimes in solitude, and takes photos.

"I will watch the weather and look for opportunities when it matches the landscape. But there are some days when I just look out the window, grab what I can."

Adrian Donoghue

Adrian Donoghue is an internationally acclaimed photographic artist best known for his creative urban landscape photography. His images focus on transforming ordinary urban scenes into other-worldly story telling images.

Adrian is a regular presenter at photography forums where he shares his knowledge of photography and Photoshop post production skills. He has been a regular featured artist in a number of print and on line magazines, and has been an active judge at camera club, national and international level over many years.

Margaret Zommers

I have been judging for five years, around Melbourne and country Victoria, a task which is more work than I realised at first but it is very satisfying.

I also love travel and history so do lots of photography in exotic places with ancient history. My husband and I travel for several months each year to take landscape photos and environmental portraits. My favourite images are all turned into photo books, and I am now working on my 20th such book. Two years ago I began to tackle creative photography, a steep learning curve but one which is extremely fulfilling. In the last year I have started to do studio portrait work, and thank Melbourne Camera Club's David Gilliver for all his help.

In fact I love three aspects of photography – taking the image, working it up in image editing (it is such a buzz to mess about with an image in Lightroom and Photoshop) and turning them into either prints or travel books. And all this enjoyment has resulted in APS and FIAP honours with GMAPS and EFIAP/b and the PPSA from the USA. I am on the VAPS committee (now as Badges and Awards Officer) and so was honoured to receive VAPS' Meritorious Award several years ago and the SSVAPS last year too.

Peter Hammer

I live in Melbourne, the capital city of the state of Victoria in Australia. I used to work in IT and electronic engineering but I now play around fulltime with photography and travel.

My main areas of interest in conventional type photography are in landscapes, cityscapes, seascapes and street photography.

I occasionally dabble in other areas when the opportunity arises such as portraiture and travel photography.

My other interest is in creative and fine art photography.

I enter a lot of international photographic competitions and since 2009 I have amassed over 2200 acceptances in salons around the world and picked up 150 awards including a fair number of Gold medals.

I earned my GMAPS from the Australian Photographic Society in 2015 following on from my MAPS in 2014.

My images have been published in newspapers, magazines, a few galleries around the world and are in countless photographic catalogues.

As well as the valuable practical experience gained working at the newspaper, during and after my time there I was able to further my photographic education. Completed an advanced certificate of Photography and Digital Imaging, Certificate in Fast Track photography and many Adult Education Courses. I have had four solo exhibitions in Melbourne., and published a book on the volunteers of the Neerim District.

Currently I am president of the Warragul Camera club of which I have been a member for 28 years.

Many items we use on a daily basis should never be put down our toilets, sinks or drains. If you flush these items, you could damage your home's plumbing and block sewer pipes. This can create messy and costly overflows of raw sewage inside or outside your house.

Only the three 'P's – pee, poo and paper – should be flushed down the toilet.

- ⊗ Baby wipes or disposable
- ⊗ Wipes - inc. 'flushable' wipes
- ⊗ Tampons or sanitary pads

- ⊗ Dental floss

Judges Scores

It was pleasing to see a greater level of "higher scores" through the Prints and EDPI judging this year, this reflects the high standard of images selected by clubs.

To accommodate additional high scores, Merits were increased to 7 in each category.

Judges deliberated extensively to make the final top three and merit selections.

We thank the judges for their expertise and we also thank the clubs and many makers who scored well in this year's Interclub.

THANK YOU CAMERA CLUBS

This year all camera clubs entered their own image and makers details into the VAPS Interclub upload system.

There were a total of 47 clubs with 680 print images and 697 EDPIs plus 29 Audio Visuals. A fantastic Interclub exhibition for 2018.

The VAPS Interclub upload system was designed and developed by Peter Lawrence of Southern Suburbs Photographic Society. We are very grateful to Peter for the work that he put in to developing a superb system for VAPS and the clubs.
